

security with style

You'll feel safe and secure with Kewco's range of Security Doors, Windows and Screens. Kewco's range of products offer the highest standard of protection and the biggest selection of styles and colours.

Combine these with your choice of the innovative Insect Screen, specifically designed to withstand the wear and tear of everyday life, or the strong restricted vision screen enabling you to see who's at the door, before they can see you. A three point locking system can be supplied for those wanting extra security.

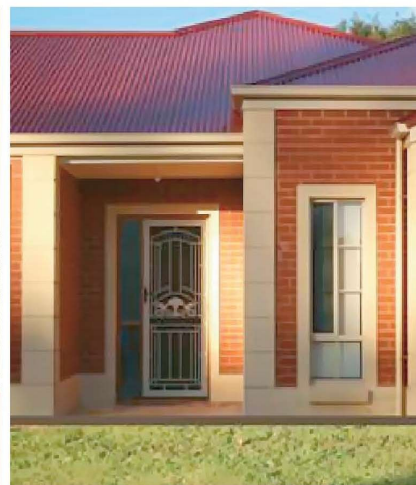

The latest technology has been used to create SupaScreen™, a woven stainless steel security door system. The clean smooth lines of SupaScreen™ gives a high level of security and will complement the outside appearance of any home.

If you are looking for a safety screen door with style, our unique range of decorative cast aluminium doors or steel wrought iron grilles will complement your home.

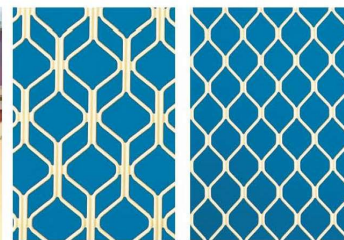

All doors are individually manufactured, so you're assured of getting the perfect fit and safety you demand. Ask for a free measure and quote.
